March 13, 1987

Dear Jim,

I have enclosed a statement covering my consultation expenses through March 13. I am very sorry to present the bill which includes the amount for an unused airplane ticket. I waited until today to place the amount (\$118) on a statement hoping that someone would be ready to purchase the ticket from me, but that did not materialize.

Your memo of a few days ago arrived and I will gather together a bibliography on music psychology and related topics. As time permits that job will get done. We have moved into the library as of this week. Things will be back to normal now.

Perhaps the seminary library might like to purchase several books on organ history and organ design. I'll provide you with titles and distributors.

Trusting that the organ project will go in the future, I remain
cordially yours,

Edward H. Meyer

Another word. . . .

Mr. Dobson understands the situation in which we find ourselves. We discussed the matter of his unused airplane tickets and he will most likely not present them for re-imbusement. He felt that might be bad publicity for his operation. EM
