April 6, 1989

With great joy I received the executed organ contract today from Mr. Martin. I am very much looking forward to working with you, Dr. Meyer, and the Seminary officials on this project.

Dinner at Kratzmer's was exquisite and again my sincere thanks for your hospitality. This month I will be installing our new instrument at The University of San Diego. In May I will start with the drawings for the case design. I intend to keep you well informed during the designing and building process.

Thanks again for your trust in my firm.

Sincerely,

encl.
