Re: Removal of Wicks Organ from chapel.

Dear Prof. Tiefel:

The church in Mora, MN that will be getting the organ is experiencing delays in the construction of the chambers to house the instrument. Realistically, we are probably looking at the end of summer before they will be ready to receive the organ.

Because I would rather not have to move the organ twice, we would like to leave it in place in Mequon until that time they are ready.

If this presents a problem for the seminary, please let either Mr. Galbraith or me know, and we will try to make arrangements for storage until then. If we don't hear from you, we will assume it is OK to leave the organ where it is until we are ready.

Thanks for your patience!

Sincerely,

Gerald A. Orvold
